

COLLIN BOYER

Colorado-based Senior Product Designer. I design experiences for early-to-mid stage companies who are looking to build a larger, happier user base. I have a background in neuroscience and UX research.

experience

SR. PRODUCT DESIGNER // TITAN

April 2022 - February 2023

Led design for primary revenue-driving products across mobile app and web experiences. Some of these include smart investing tools, wealth management services, and a first-of-its kind platform that gives retail investors access to world-class fund managers on Wall Street.

SR. PRODUCT DESIGNER // VISE

Nov 2020 - Present

Lead designer at Vise. Led initiatives to redesign our core product and introduce new features, launch a research function, build a new design system and brand, and establish UX/UI practices and processes to put Vise on the path to be a world class workflow tool for Financial Advisors.

PRODUCT DESIGNER // VTS

Jan 2019 - Nov 2020

Research, strategized, and designed the user experience and UI for a novel tenant management experience. Worked cross-functionally to design a variety of projects ranging from design system components to new features and usability audits.

UX RESEARCHER, PRODUCT DESIGNER // AIG

Oct 2017 - Jan 2019

Led all aspects of researching and testing for multifaceted employee-facing intranet environments and investment monitoring platform. Owned and shipped consumer-facing mobile app for submitting claims while abroad by transforming research findings into intuitive designs.

education

UNIVERSITY OF ARIZONA // NEUROSCIENCE AND COG. SCI

Focus in Neurogenetics, Learning and Memory
